- Brood Barn Drinkers after 6th week
- Scale accumulation in Valve mechanism
- Very hard Scale accumulation at 6 weeks.
- *Grower – “we are adding SCALEBLASTER to all of our Barns!”*

SCALEBLASTER AG BENEFIT SUMMARY

- Cleaning the Drinker system between flocks is significantly quicker and does not require Acids or Chemicals.
- Biofilm uses Scale as a harbinger. Eliminating Scale in the Drinker lines reduces the environment for greater biofilm development
- SCALEBLASTER AG Pays for itself in Labor, Chemical and cleaning time savings... Quickly!
